Press Release:

Material Grant Support for Carbon Fullerene C60

SES Research Inc. is offering a material grant to support researchers whose projects focus on Carbon fullerene powders, specifically Carbon 60.

Details: Upon approval SES Research Inc will provide a material grant in the form of Carbon 60 fullerene powder to researchers at little or no cost.

This grant is for accredited Universities and research organizations intent on publishing the research. Please submit your application with details of the project proposal for consideration.

Applicant Grant Letter must include:

- Organization, University and/or department
- Address
- P.I - Contact person name, address, phone, email
- Faculty Supervisor
- Descriptive Title of Applicant's Project
- Proposed Project details with project start and end date (please limit to 500 word count)

Letter can be submitted to the follow person below in a PDF format.

Regards,

Robert Wong
